

Beware BRITISH PETROLEUM'S
\$500 million

Trojan Horse "Gift" to Cal

We Can Stop the Deal Before it's Signed!

- *THE* proposed "bioenergy" deal actually involves financing more research on **coal & oil**.
- *BP's greenwashing* taints UC Berkeley's reputation.
- *IN* 2006, BP spent **\$3 million opposing** CA's Proposition 87 to use gas taxes for sustainable public financing of alternative energy research.
- *THE* proposal mostly **ignores negative environmental & socio-economic** impacts of biofuels, GMOs & BP.
- *UP* to **50 BP employees** could work on campus in a taxpayer-funded building, & teach & mentor students.
- *UCB* was to sign the deal behind **closed doors** in Feb; they now say they listen to students, but only invited 4 supportive students, 1 who previously worked at BP.
- *THE* ASUC & GA passed resolutions critical of the deal.
- *WE* don't want the **blood money** BP makes by working with corrupt, violent & repressive regimes in Algeria, Azerbaijan, Colombia, Nigeria and elsewhere.

**NEXT MEETING: 5:00 pm, Thursday, Oct 11
575 McCone Hall, UCB**
